

Plastic Surface Scraper Set

This set includes plastic scrapers designed for various surface applications. The durable, flexible plastic construction makes them ideal for smoothing, spreading, or removing materials in painting and drywall projects.

Product Overview

Professional Surface Preparation Tools

This set of four plastic scrapers is engineered for versatility and durability in professional environments. Designed for smoothing, spreading, and material removal, these tools feature a flexible plastic construction that ensures effective performance without damaging surfaces. Each scraper includes a textured handle with a convenient hanging hole, making them an essential addition to any painting or drywall toolkit.
