

Pliers for Gripping, Cutting, and Bending

These pliers are designed for various gripping, cutting, and bending tasks. Their durable construction and ergonomic handles ensure comfortable use in electrical work, DIY projects, and general repairs.

Overview

Versatile Multi-Purpose Pliers

These professional-grade pliers are engineered to handle a wide range of tasks, including gripping, cutting, and bending. Built with high-quality materials, they offer the durability required for intensive electrical work, general repairs, and DIY projects. The ergonomic handle design ensures user comfort during prolonged use, providing the precise control needed for demanding applications.

Technical Specifications

Design Features

- Ergonomic handle design
- High-durability construction
- Precision control mechanism

Primary Applications

Gripping, Cutting, Bending, Electrical Work, General Repair

Performance

Key Performance Indicators

1 Multi-function

Tool Versatility
