

Plow Bolt with Countersunk Head

This high-strength plow bolt is designed for agricultural applications. It features a countersunk head for flush mounting and a square shoulder for secure fastening.

Product Overview

High Tensile Plow Bolts

These high-tensile plow bolts and nuts are engineered for heavy-duty applications, specifically designed for OEM heavy equipment and earthmoving machinery. Featuring a countersunk head for flush mounting and a durable steel construction, they provide reliable performance under demanding operational conditions. Available in both Class 12.9 and Class 10.9, these fasteners ensure secure fastening and exceptional resistance to wear.

Technical Specifications

Key Features

- High tensile strength
- Flush mounting design
- Square shoulder for secure fastening
- Corrosion and wear resistance

Material Grades	Class 12.9, Class 10.9
Primary Application	OEM heavy equipment and earthmoving machinery
Head Style	Countersunk
