

Plug Hole Drill Rod

This drill rod is designed for drilling plug holes in materials like concrete and masonry. It is constructed from durable steel and features a hexagonal shank for secure chuck grip and optimal torque transfer.

Product Overview

Integral Plug Hole Drill Rod

The integral rock rod is engineered for efficient small-hole drilling in stone pit environments. By integrating the rod and bit into a single unit, this design eliminates the need for shank adapters or coupling sleeves. This streamlined construction significantly reduces energy wastage and improves overall drilling efficiency for professional applications.

Technical Specifications

Shank Sizes

- hex. 22mm x 80mm
- hex. 22mm x 108mm
- hex. 22mm x 159mm
- hex. 25mm x 108mm
- hex. 25mm x 159mm

Head Diameter Range

24 mm

Min Diameter

44 mm

Max Diameter

Steel Grade

95CrMo, 55SiMnMo

Available Lengths

150mm - 800mm

Logistics

Packaging

Wooden case • Bundles
