Overview

Reliable Circuit Protection

This plug-in circuit breaker series is engineered for robust protection against overloads and short circuits in electrical distribution systems. Designed for versatility, these units are ideal for a wide range of applications, including domestic, commercial, and light industrial installations. With a thermal-magnetic trip mechanism and quick plug-in installation, they ensure both safety and ease of use in standard load centers and panelboards.

Technical Specifications

Rated Current Range

15 A

Min Current

100 A

Max Current

Voltage Rating

120/240VAC

Trip Mechanism

Thermal-magnetic

Features

Installation Type

Plug-in

Key Benefits

- Overload protection
- Short-circuit protection
- Quick installation
- Clear ON/OFF status indication

Application Areas

Domestic, Commercial, Light Industrial
