

Plumbing Angle Valve

This angle valve is designed for controlling water flow in plumbing systems. It features a compression fitting for secure connection to pipes.

Overview

Professional Plumbing Angle Valve

This high-quality angle valve is designed for precise water flow control in both residential and commercial plumbing systems. Featuring a durable chrome finish, it offers excellent corrosion resistance and a clean, professional aesthetic. The integrated compression fitting ensures a secure, leak-proof connection to standard piping, making it a reliable choice for various plumbing installations.

Technical Specifications

Finish	Chrome
Connection Method	Compression Fitting

Applications

Suitable Environments	Residential, Commercial
Primary Function	Water flow control
