

Plunge Cut Hand Saw for Boards and Dry-wall

This hand saw is designed for cutting into boards and drywall. It features a sharp, pointed blade for plunge cuts and a toothed edge for efficient sawing.

Product Overview

Professional Plunge Cut Saw

This specialized hand saw is engineered for precision cutting in drywall and various board materials. Featuring a sharp, pointed blade, it is specifically designed for efficient plunge cuts, making it an essential tool for creating openings for electrical boxes, pipes, and other installations. The ergonomic handle ensures a comfortable and secure grip during intensive use.

Key Features

Design Highlights

- Sharp, pointed tip for easy plunge entry
- Aggressive toothed edge for efficient material removal
- Ergonomic handle design for user comfort
- Secure grip for controlled handling

Primary Application

Drywall, Board Cutting, Plunge Cuts

Usage

Common Use Cases

Electrical Box Installation • Pipe Openings • Wall Cutouts • Ceiling Installations
