

# Pneumatic Air Blow Gun with Metal Nozzle

This air blow gun is designed for efficient dust and debris removal. It features a durable metal nozzle for precise airflow and an ergonomic handle.

## Product Overview

### Professional High Pressure Air Blow Gun

This high-pressure air blow gun is engineered for professional cleaning tasks, featuring a high-quality stainless steel cast tube that ensures strong corrosion resistance and durability. Designed to effectively remove dust and moisture, it incorporates a sturdy brass pipe joint and a high mechanical strength handle for reliable performance. Its ergonomic design offers good toughness, making it an ideal tool for maintaining equipment and work surfaces in demanding environments.

## Technical Specifications

### Key Features

- Corrosion-resistant construction
- High mechanical strength handle
- Effective dust and moisture removal
- High pressure capability

Nozzle Material	Stainless Steel
Internal Components	Brass pipe joint

## Packaging & Logistics

### Carton Specifications

Item No.	Size	Inner Qty	Outer Qty	G.W (kg)
671003	110mm	10	100	15.35
671004	300mm	10	100	21.6

Packaging Material	Triple Wall Corrugated Carton
Delivery Lead Time	14 Days
