

# Pneumatic Clipped Head Framing Nailer

This pneumatic framing nailer is designed for professional construction and woodworking. It features adjustable depth control for precise nail placement and a comfortable grip.

## Overview

### Professional Framing Nailer

This high-performance pneumatic framing nailer is engineered for durability and reliability in demanding construction and woodworking environments. Featuring a robust metal housing and a powerful air motor, the tool ensures efficient and consistent fastening for heavy-duty tasks. Designed with user comfort in mind, it includes a lightweight build to reduce fatigue and an ergonomic grip for extended operation.

## Technical Specifications

Compatible Fasteners	Clipped head framing nails
Depth Adjustment	Yes
Housing Material	Metal

## Key Features

### Usability Features

- Quick-release magazine for easy loading
- Adjustable depth control for precise placement
- Ergonomic comfortable grip
- Lightweight design to reduce fatigue

Ideal Applications	Framing, Sheathing, Heavy-duty Construction, Woodworking
