

# Pneumatic Coil Nailer - 25-57mm Nail Range

This pneumatic tool is engineered for high-volume fastening tasks. It is compatible with coil nails ranging from 25mm to 57mm (1"-2 1/4") in length and Ø2.1mm to Ø2.3mm in diameter, making it suitable for diverse construction and industrial applications.

## Product Overview

### High-Efficiency Fastening Solution

The CN55 Pneumatic Coil Nailer is a robust, high-volume tool engineered for demanding industrial and construction environments. With a versatile nail range of 25mm to 57mm, it is perfectly suited for tasks such as pallet assembly, crate manufacturing, and fencing. Its reliable pneumatic operation ensures consistent performance across high-frequency applications.

## Technical Specifications

### Operating Pressure

**70 psi**

Min Pressure

**110 psi**

Max Pressure

Tool Weight	2.75 kg
Magazine Capacity	400 pcs

## Fastener Details

Nail Length Range	25-57mm
Nail Diameter Range	2.1-2.3mm

## Applications

Recommended Applications	Pallets, Boxes and crates, Fencing, Packaging
--------------------------	---

## Compliance

Certifications  
CE Compliant
