

Pneumatic Finish Nailer

This pneumatic tool drives finish nails into various materials. Its lightweight design ensures comfortable handling and reduces user fatigue.

Product Overview

Professional Pneumatic Finish Nailer

This pneumatic finish nailer is engineered for precision and reliability in fine woodworking applications, including trim work, cabinetry, and furniture assembly. Its lightweight construction minimizes user fatigue during extended operation, while the ergonomic grip ensures secure handling. Featuring an adjustable depth drive and a quick-release nose for efficient jam clearance, this tool is built to maximize productivity on the job site.

Technical Specifications

Power Source	Compressed Air
Key Features	Adjustable Depth Drive, Quick-Release Nose, Ergonomic Grip, Lightweight Design

Applications

Recommended Applications

- Trim Work
- Cabinetry
- Furniture Assembly
- Fine Woodworking
