

# Pneumatic Grease Dispensing Kit

This pneumatic grease dispensing kit is designed for efficient and clean grease application. It features a high-pressure grease pump, air regulator, grease hose, dispensing nozzle, drum cover and follower plate.

## Product Overview

### Efficient Lubrication Solution

This pneumatic grease dispensing kit is engineered for efficient and clean grease application in demanding industrial and automotive environments. The system includes a high-pressure grease pump, air regulator, hose, and dispensing nozzle to ensure precise lubrication while minimizing waste. Designed for reliability and ease of use, it features a drum cover and follower plate to prevent contamination and maintain grease quality.

## Technical Specifications

### Included Components

- High-pressure grease pump
- Air regulator
- Grease hose
- Dispensing nozzle
- Drum cover
- Follower plate

### System Type

Pneumatic

### Recommended Applications

Industrial Maintenance, Automotive Service

## Performance Features

### Performance Highlights

**1 Included**

Contamination Protection

**1 Yes**

Precision Application
