

Pneumatic Nailer for Woodworking and Construction

This pneumatic nailer is suitable for woodworking, upholstery, and other construction tasks. It operates on compressed air for consistent power and reliability.

Product Overview

Professional Performance Overview

This professional-grade pneumatic nailer is engineered for high-demand woodworking, upholstery, and general construction tasks. It features a durable, rugged construction paired with an ergonomic grip to ensure long-lasting reliability and comfort during extended shifts. With integrated adjustable depth control and a quick-reload magazine system, this tool provides the precision and efficiency required for professional workflows.

Technical Specifications

Ergonomics

- Comfortable grip handle
- Reduced user fatigue design
- Durable heavy-duty construction

Power Source	Compressed Air
Safety Features	Safety firing mechanism, Adjustable depth control

Application

Suitable Applications

Woodworking • Upholstery • Construction
