

# Pneumatic Narrow Crown Stapler

This pneumatic tool drives narrow crown staples efficiently. Its lightweight design ensures comfortable handling for applications like furniture assembly and cabinet making.

## Overview

### Professional Narrow Crown Stapler

The 422J-4 pneumatic narrow crown stapler is a versatile tool engineered for efficiency in furniture assembly, cabinet making, and general construction tasks. Featuring a lightweight, durable construction, it is designed to minimize user fatigue while maintaining performance in demanding work environments. The tool incorporates essential features such as a quick-release nose for rapid jam clearing and adjustable depth control for precise staple placement.
