

Pneumatic Rubber Bicycle Tire 26x2x1.3/4

This pneumatic rubber bicycle tire is designed for city bikes. It is suitable for carrying heavy things.

Product Overview

High-performance tread design for optimal grip and control on urban surfaces.

Heavy-Duty City Bicycle Tire

This pneumatic rubber bicycle tire is specifically engineered for city bikes required to carry heavy loads. Featuring a robust construction and a specialized tread pattern, it provides optimal grip and enhanced wear resistance for daily urban use. The high-quality rubber compound ensures a smooth, controlled ride while offering superior puncture protection for long-lasting reliability.

Technical Specifications

Durable construction specifically designed for heavy-duty city bike applications.

Tire Size

26 inch

Diameter

2 inch

Width

Full Size Specification	26x2x1.3/4
Item Number	DBB2109
Color	Black
Material	Pneumatic Rubber

Usage & Application

Primary Application	City bikes designed for heavy load transport
Performance Features	Puncture Resistance, High Grip, Wear Resistance, Heavy Load Capacity

Supply & Logistics

Order Details

Metric	Value
Minimum Order Quantity	1,000 Pcs
Supply Ability	50,000 Pcs per Month
Port of Loading	Guangzhou, China

Accepted Payment Terms

- L/C (Letter of Credit)
- T/T (Telegraphic Transfer)
