Product Overview

Versatile Pneumatic Solution

This 8-inch pneumatic rubber wheel is engineered for reliability in gardening and landscaping equipment. Featuring a durable metal hub and a ribbed tread pattern, it provides excellent cushioning and grip on varied outdoor surfaces. The standard inflation valve allows for easy pressure management up to 30 PSI, supporting a load capacity of up to 80 kg.

Technical Specifications

Maximum Pressure

30 PSI

Max Pressure

Maximum Load

80 kg

Load Capacity

Wheel Size

8 x 2.50-4

Usage Information

Operational Restrictions

- Not for high-speed use
- Not for highway use
- Designed for gardening vehicles and carts

Safety Certifications

Inflatable, Ribbed Tread, Metal Hub
