

Pneumatic Screwdrivers

These pneumatic screwdrivers are designed for various screw sizes and torque requirements. The tools feature variable speeds and torque capabilities, catering to different assembly and fastening applications.

Product Overview

High-Efficiency Assembly Tools

These pneumatic screwdrivers are engineered for precision fastening in industrial assembly environments. Featuring a range of variable speed and torque capabilities, they are designed to handle diverse screw sizes from 3.5mm to 6mm. With robust construction and consistent performance, these tools provide the reliability required for demanding production lines.

Performance Data

Performance Specifications

Model	Speed (RPM)	Max Torque (kgf.cm)
US3.5mm	2000	30
US4.0mm	4000	35
US3.5AA	2000	30
4-5mm	9000	40
5-6mm	9000	50

Key Features

Tool Types Available

6H • 8H • US3.5AA

Supported Screw Sizes

3.5mm, 4.0mm, 4-5mm, 5-6mm
