

Pneumatic Staple Gun for Woodworking

This pneumatic staple gun is designed for efficient fastening in a variety of applications. It utilizes compressed air to drive staples into materials such as wood, fabric, and plastic.

Product Overview

Professional Performance

This pneumatic staple gun is a powerful and efficient tool engineered for versatile fastening applications across wood, fabric, and plastic materials. Designed with ergonomics in mind, it minimizes user fatigue during extended operation, making it an ideal choice for upholstery, woodworking, and general construction tasks. Key features include adjustable depth control for precise placement and a quick-release magazine for rapid reloading.

Technical Specifications

Model Identifier	422J
Power Source	Compressed Air
Recommended Applications	Upholstery, Woodworking, General Construction

Features

Key Features

- Ergonomic handle design
- Adjustable depth control
- Quick-release magazine system

Compatible Materials

Wood • Fabric • Plastic
