

Pneumatic Staple Gun

This pneumatic staple gun is a powerful tool for fastening applications. Operating on compressed air, it provides a consistent driving force for staples.

Overview

Professional Performance

This pneumatic staple gun is a robust and efficient tool engineered for reliable fastening in upholstery and woodworking applications. Designed with an ergonomic handle and a compact frame, it offers excellent maneuverability even in tight workspaces. The tool incorporates a safety mechanism to prevent accidental firing, ensuring operator security during intensive use.

Technical Specifications

Staple Length Range

9 mm Minimum Length	16 mm Maximum Length
