

Pneumatic Swivel Caster Wheel

Pneumatic caster wheel with a yellow hub and black rubber tire, designed for heavy-duty use. It is mounted on a galvanized steel bracket and features an inflation valve for adjusting tire pressure.

Product Overview

Heavy-Duty Pneumatic Mobility

This pneumatic swivel caster wheel is engineered for demanding environments, providing reliable mobility for heavy equipment and transport systems. Featuring a durable black rubber tire with specialized tread, it ensures superior grip and shock absorption on various surfaces. The galvanized steel bracket offers robust support, making it an ideal solution for trolleys, large dollies, and industrial shelving.

Technical Specifications

Tire Size	2.50-4
Tire Type	Pneumatic
Bracket Material	Galvanized Steel
Inflation Valve	Yes

Applications

Recommended Applications

- Trucks and Trolleys
- Bogies
- Large Dollies
- Heavy Display Equipment
- Equipment Stands
- Mobile Retail Stands
- Shelving Systems
- Waste and Tote Bins
