

Pneumatic Tire Changer

This tire changer is designed for efficient and safe tire removal and installation. It features a robust construction for durability and long-term use.

Product Overview

Professional Grade Tire Changer

This pneumatic tire changer is engineered for efficient and safe tire mounting and demounting operations in automotive service centers. It features a robust, durable construction designed for long-term daily use in demanding environments. The integrated pneumatic control system ensures precise handling to minimize the risk of damage to tires and rims.

Technical Features

Design Features	Pneumatic Controls, Swing Arm, Integrated Bead Breaker
Clamping System	Advanced clamping system designed to securely hold wheels of various sizes

Application

Recommended Use

- Automotive service centers
- Professional tire shops
