

Pneumatic Tire Inflating Gun with Gauge

Pneumatic tire inflating gun features an integrated pressure gauge for accurate inflation. It has a durable construction, ergonomic handle, and flexible hose for easy access to tire valves.

Product Overview

Professional Tire Inflating Solution

This pneumatic tire inflating gun is designed for precision and durability in professional workshop environments. Featuring a robust aluminum die-casting body with a protective powder coating, it offers long-lasting performance for daily use. The integrated pressure gauge ensures accurate inflation control, supporting both bar and psi readings for versatile application across various tire types.

Technical Specifications

Maximum Pressure

7 bar

Max Pressure

Net Weight	0.42 kg
Air Inlet	1/4"
Hose Length	360 mm

Construction & Design

Body Material	Aluminum die casting
Surface Finish	Powder coating

Features

Supported Units	bar, psi
