

Pneumatic Wheel Wheelbarrow

This robust wheelbarrow is designed for a variety of material handling tasks. It features a durable tray, sturdy frame, and a single pneumatic wheel for easy maneuverability.

Product Overview

Robust Material Handling Solution

This pneumatic wheel wheelbarrow is engineered for versatility and durability in demanding work environments. Featuring a sturdy frame and a high-capacity tray, it is designed to withstand the rigors of heavy-duty material transport. The single pneumatic wheel ensures smooth navigation across uneven terrain, making it an ideal choice for construction sites, landscaping projects, and gardening tasks.

Design & Build

Wheel Type	Pneumatic
Number of Wheels	1

Applications

Key Features

- Durable tray construction
- Sturdy steel frame
- Easy maneuverability
- Versatile material handling

Primary Applications	Construction, Gardening, Landscaping
