

Pneumatic Wheelbarrow with Metal Tray

This wheelbarrow is designed for landscaping and construction tasks. It features a durable metal tray and a pneumatic tire for easy maneuverability.

Product Overview

Robust Utility Wheelbarrow

This durable pneumatic wheelbarrow is engineered for demanding landscaping and construction environments. Featuring a high-capacity metal tray and a reinforced orange-painted frame, it provides the structural integrity required for heavy-duty material transport. The single pneumatic tire ensures smooth maneuverability across uneven terrain, while ergonomic black grips offer enhanced control and operator comfort.
