

Pneumatic Wheelbarrow with Metal Tray

This wheelbarrow is designed for transporting materials in construction, gardening, and landscaping. It features a durable metal tray for holding loads and a single pneumatic tire for easy maneuverability.

Product Overview

Robust Material Transport Solution

This pneumatic wheelbarrow is engineered for demanding tasks in construction, landscaping, and gardening environments. Featuring a durable metal tray and a single pneumatic tire, it ensures reliable performance and easy maneuverability over uneven terrain. The sturdy frame design provides optimal stability and balance, while ergonomic handles are incorporated to facilitate comfortable operation when transporting heavy loads like soil, gravel, or concrete.

Key Features

Core Features

- Durable metal tray construction
- Pneumatic tire for uneven terrain
- Sturdy frame for stability
- Ergonomic handle design

Usage & Applications

Typical Loads

Soil • Gravel • Concrete • Heavy Materials

Suitable Applications

Construction, Gardening, Landscaping
