

Pneumatic Wheelbarrow with Plastic Tub

This wheelbarrow is designed for both garden and construction use. It features a durable plastic tub, a sturdy metal frame, and a pneumatic tire for easy maneuverability.

Product Overview

Durable Utility Wheelbarrow

This pneumatic wheelbarrow is designed to withstand the rigors of both garden and construction environments. Featuring a robust plastic tub and a sturdy metal frame, it provides a reliable solution for transporting heavy materials like soil, gravel, and debris. Its pneumatic tire ensures smooth maneuverability across uneven terrain, making it an essential tool for professional landscaping and construction projects.

Design and Build

Tub Material	Plastic
Frame Material	Metal
Wheel Type	Pneumatic

Usage

Suitable Materials

- Soil
- Gravel
- General construction debris

Applications	Garden, Construction, Landscaping
