

Point of Sale Cash Drawer

This cash drawer is designed for point-of-sale (POS) systems. Constructed from durable steel, it features a lockable front panel and multiple compartments for organizing banknotes and coins.

Overview

Secure Cash Management Solution

The ZQ-415D series cash drawer is a robust and secure solution designed for point-of-sale (POS) systems in retail and hospitality environments. Constructed from durable steel, it features a 3-position lockable front panel to ensure enhanced security for cash handling. With a versatile internal layout and standard RJ-11 connectivity, it provides a reliable and organized method for managing banknotes and coins.
