

Point of Sale Terminal with Cash Register

This point-of-sale terminal integrates a cash register for streamlined transactions. The durable enclosure features slots for card readers, cash dispensers, and display screens.

Product Overview

Robust POS Terminal Enclosure

This professional-grade POS terminal and cash register enclosure is designed for secure, high-traffic retail environments. Constructed from a durable blend of metal and plastic, it provides a robust housing for essential electronic components. The design features a convenient hinged top section supported by a gas strut for easy maintenance access, ensuring long-term reliability and operational efficiency.
