

Pointed Tip Garden Shovel for Digging and Planting

This garden shovel is designed for a variety of gardening tasks. It features a sturdy metal blade with a pointed tip that is suitable for digging and planting.

Product Overview

Professional Garden Shovel

This professional-grade garden shovel is engineered for durability and efficiency in various outdoor tasks. Featuring a heat-treated carbon steel blade with a black powder coating, it offers excellent resistance to wear and corrosion. The ergonomic TPR grip ensures comfort during extended use, making it an ideal tool for digging, planting, and transplanting in both garden and camping environments.
