

Pole-Mount LED Area Light with Wood-Grain Finish

This circular LED lighting fixture is designed for mounting around a cylindrical pole. It features a decorative wood-grain finish and a ring of evenly spaced LED lights for 360-degree illumination.

Product Overview

Innovative Pole-Mount LED Solution

This circular LED lighting fixture provides high-efficiency, 360-degree illumination by mounting directly around a cylindrical pole. Featuring an aesthetic wood-grain finish, it blends functionality with a modern, decorative appeal suitable for urban or architectural environments. The innovative split-design allows for easy installation, making it an excellent choice for upgrading existing lighting infrastructure.

Design and Aesthetics

Surface Finish	Wood-Grain
Design Features	Circular, Split-design, 360-degree illumination

Technical Specifications

Mounting Type	Pole-mount
Pole Compatibility	Cylindrical
Light Coverage	360 degrees
