Product Overview

Professional Grinding & Polishing Backing Pad

This rubber backing pad is engineered for demanding grinding and polishing applications on stone and masonry surfaces. Featuring a 5/8" arbor for secure attachment to angle grinders and floor machines, it provides a stable and flexible platform for abrasive operations. Available in both soft and hard bond variations, it is designed to facilitate fast grinding, rough deburring, and smooth finishing with consistent results.

Technical Specifications

Connection Type	5/8" Arbor
Material	Rubber
Bond Options	Soft Bond, Hard Bond
Attachment System	Velcro

Compatibility & Use

Compatible Equipment

- Angle Grinder
- Hand-held Grinders
- Floor Polishing Machine

Primary Applications

- Fast Grinding
- Rough Deburring
- Smooth Shaping
- Finishing

Logistics & Packaging

Packaging Available

Double Blister • Card Sleeve • Color Box
