Overview

Professional Safety Lifeline

This 3-strand vertical lifeline is engineered for high-performance safety in demanding industrial environments. Constructed from a durable blend of polyester and polypropylene, the rope features a soft surface texture that enhances grip and provides superior abrasion protection. It is equipped with integrated steel snap hooks for secure, reliable connections in fall protection and rigging applications.

Technical Specifications

Performance Metrics

8600 lbs

Tensile Strength

1720 lbs

Work Load Limit

Rope Diameter

0.625 in

Material Composition

Polyester, Polypropylene

Connector Type

Double Lock Steel Snap Hook

Applications

Recommended Applications

- Safety Lines
- Rigging Lines
- Tag Lines
- Utility Lines
- Stringing Lines
- Underground Pulling

Safety & Maintenance

Safety Protocols

- Read, understand and follow all labels and instructions prior to use
- Inspect before each use
- Remove from service if there is evidence of damage or excessive wear
