Product Overview

High-Performance Cleanroom Wipes

These polyester cleanroom wipes are engineered for critical environments, utilizing continuous filament knitted fabric to ensure superior strength and minimal linting. Each wipe undergoes a rigorous laundering process with 18 M@ure water to maintain low-level contamination. With laser or ultrasonic sealed edges, these wipers provide an ultra-low level of particle generation, making them suitable for ISO Class 4 cleanroom applications.

Technical Specifications

Cleanroom Class

ISO Class 4 • ISO Class 6

Available Grain Types

- Stripe Grain (for sensitive surfaces)
- Grid Grain (for stubborn stains)

Material	100% Polyester (Knitted continuous filaments)
Edge Sealing	Laser Sealed, Ultrasonic Sealed
Solvent Compatibility	IPA, Acetone

Packing Details

Packaging Specifications

Size	Pieces/Bag	Bags/Carton
9"x9"	150	20
6"x6"	150	20
4"x4"	600	40

Packaging Method	Double chamber vacuum packaging
