Product Overview

High-Performance Cleanroom Wipes

These polyester microfiber wipes are engineered for critical environments requiring low-linting performance and superior absorbency. Manufactured with laser or ultrasonic sealed edges, they prevent loose ends and ensure particle control suitable for Class 100 cleanrooms. Their soft, interlock knit construction makes them ideal for sensitive surface cleaning in electronics and pharmaceutical manufacturing.

Technical Specifications

Cleanroom Compatibility

ISO Class 4 • Class 10 • Class 1000

Material	100% Polyester Microfiber (Interlock Knit)
Edge Sealing Method	Laser Sealed, Ultrasonic Sealed
Certifications	ISO 9001, ISO 14001, CE, SGS

Packaging and Logistics

Available Sizes and Packaging

Size	Pieces/Bag	Bags/Carton
9"x9"	100	20
6"x6"	100	20
4"x4"	400	40

Packaging Method	Double-chamber vacuum packaging
------------------	---------------------------------

Usage Guidelines

Handling Precautions

- Remove outer packaging chamber before entering cleanroom
- Wrap edges to the upper middle of wipes during use to prevent surface damage
- Do not cut wipes to avoid lint generation
- Keep away from fire and high-temperature surfaces
