Product Overview

High-Performance Sanding Solution

This polyester sanding sponge is engineered for versatile surface preparation across wood, metal, and plastic. Featuring a durable abrasive surface bonded to a flexible foam backing, it ensures consistent pressure distribution and excellent conformability to contoured surfaces. Designed for both wet and dry applications, this sponge minimizes the risk of surface damage while offering superior resistance to clogging for an extended service life.

Technical Specifications

Available Colors

Red • Blue • Yellow • Black • Orange

Grit Range

60# - 320#

Materials

Polyester, Sponge, EVA, Silicon Carbide, Aluminum Oxide

Compliance & Standards

Certifications

BSCI, FSC, ISO, Environmental Protection

Usage

Suitable Applications

- Wood sanding
- Wall preparation
- Metal finishing
- Contour sanding
- Wet sanding
- Dry sanding
