Product Overview

High-Performance Polyethylene Tarp

This multi-purpose polyethylene tarp is engineered for durability and reliable protection in demanding environments. Constructed from 100% new PE material with lamination on both sides, it offers excellent resistance to the elements. The design features a rope-reinforced hem around the edges, ensuring structural integrity and longevity for covering equipment, construction sites, or outdoor storage.

Physical Properties

Color

Green

Material

100% New Polyethylene (PE)

Fabric Weight

140 gsm

Surface Treatment

Laminated both sides, Rope reinforced hem

Dimensions & Packaging

Packaging

- Individual color label
- Poly bag
- Carton packing

Dimensions

9' x 9'
