

Polyurethane Flat Belt 8.5mm

This flat belt is made of polyurethane. It has a width of 8.5mm and is designed for use in machinery and industrial applications.

Overview

High-Performance Polyurethane Flat Belt

This 8.5mm polyurethane flat belt is designed as a durable replacement component for industrial automated machinery. Engineered for reliability and consistent performance, it facilitates smooth operation in high-speed feeding systems. Its robust material construction ensures longevity and stability in demanding production environments.

Physical Properties

Belt Width	8.5 mm
Material	Polyurethane

Compatibility

Supported Feeder Types

- 12x8P Emboss
- 8Wx2P Paper
- 8x4P Paper
- 12x4P Emboss
- 16x8P Emboss
- 8x2mm Paper

Reference Part Number	N510022408AA
