

Polyurethane Pneumatic Air Hose

This polyurethane air hose is suitable for various pneumatic applications. It features reinforced construction for enhanced strength and longevity.

Product Overview

Professional Grade Pneumatic Solution

This contractor-grade polyurethane air hose is engineered for durability and ease of use in demanding environments. Featuring a reinforced braided polyester fiber cord, it offers superior resistance to oil and abrasion while remaining lightweight to reduce user fatigue. Its smooth, non-marking finish makes it an ideal choice for delicate projects, such as roofing, where surface protection is critical.

Performance Metrics

Max Working Pressure

300 psi

Max Pressure

Operating Temperature Range

-34 to 60°C / -30 to 140°F

Technical Specifications

Hose Dimensions

Diameter	Length
1/4"	25ft
1/4"	50ft
1/4"	100ft

Air Inlet/Outlet

1/4" (M)

Key Features

Features

- Contractor-grade polyurethane construction
- Reinforced with braided polyester fiber cord
- Swivel fittings on both ends
- Lightweight design for reduced fatigue
- Oil and abrasion resistant
- Flexible in various weather conditions
- Smooth, non-marking finish
