

Portable 0.18L K-Cup Coffee Maker

This portable K-Cup coffee maker allows users to enjoy freshly brewed coffee anywhere. With a 0.18L capacity, it is designed for a single serving and features one-button operation.

Product Overview

Portable Brewing Solution

This portable K-Cup coffee maker is designed specifically for on-the-go use, featuring a 12V power supply ideal for car travel. With a compact 0.18L capacity, it allows for quick brewing of single servings in just 1-2 minutes using hot water. The unit is constructed from BPA-free materials and includes a double-walled cup that retains heat for up to 30 minutes.
