

Portable 12V Car Shower Set with Adjustable Spray

This portable car shower set includes a submersible pump, adjustable shower head, and a 12V power adapter. It is designed for on-the-go cleaning, making it suitable for camping and outdoor activities.

Product Overview

Portable Cleaning Solution

This DC12V portable car shower set is a versatile and convenient solution designed for on-the-go cleaning, camping, and outdoor activities. The system features a powerful submersible pump that draws water from a bucket, delivering it through a 2-meter hose to an adjustable shower head. Easily powered via a standard vehicle cigarette lighter socket, it offers reliable performance wherever you have access to a 12V power source.
