

Portable 2.2kW Gasoline Generator

This portable gasoline generator delivers a maximum output of 2.2 kW. It features AC outlets for connecting electrical devices and a voltmeter for monitoring output voltage.

Overview

Reliable Power Anytime, Anywhere

This portable gasoline generator is engineered to deliver a maximum output of 2.2 kW, making it an ideal power solution for diverse professional and residential needs. It features a rugged, protective frame design to ensure durability during transit and operation. Equipped with intuitive controls including a built-in voltmeter and dedicated AC outlets, it provides seamless power access for your essential tools and appliances.

Technical Specifications

Maximum Power Output

2.2 kW

Max Output

Control Panel Features

- Voltmeter for output monitoring
- AC Power Outlets
- Integrated Circuit Breaker

Engine Type

5.5 HP Class Gasoline Engine

Applications

Suitable For

Residential Use, Professional Tools, Emergency Backup, Portable Operation
