Overview

Reliable Portable Power Solution

This portable gasoline generator is engineered to deliver consistent electrical power for both residential and commercial applications. Featuring a robust 7.0 HP 4-stroke engine, it provides a reliable 2800W rated output with a 3000W maximum capacity. Designed for versatility and ease of use, it includes an electric start system, durable frame construction, and integrated safety features like overload protection and low oil shutdown.

Engine & Technical

Engine Power	7 HP
Engine Type	4-stroke gasoline engine

Electrical System

Starting Method	Electric Start
Battery Specifications	12V 7Ah

Features & Safety

Design Features

- Durable steel frame
- Integrated wheels for transport
- Intelli Gauge display
- Air filtration system

Safety & Protection

Overload Protection, Low Oil Shutdown, Circuit Breaker

Applications

Recommended Use

Application Area

Emergency Backup Power
