

Portable AC Power Generator

This portable generator is designed to provide reliable AC power. It features a robust engine with an engine switch, a volt meter, a circuit breaker, AC outlets, AVR, and a sturdy frame.

Overview

Reliable Portable Power

The HS5.0GF is a robust portable generator engineered to provide dependable AC power for various applications. Designed with durability in mind, it features a sturdy frame for easy transport and protection. The unit includes essential safety and monitoring features such as an Automatic Voltage Regulator (AVR) for stable output, a circuit breaker for overload protection, and a built-in volt meter.

Technical Specifications

Voltage Regulation

AVR Equipped

Output Voltage	220V
