

Portable Air Compressor with Trailer

This is a portable power compressor unit with a trailer, designed for easy transportation. It provides on-site power generation and compressed air supply, making it suitable for various applications.

Overview

Versatile On-Site Power and Air Solution

This portable air compressor unit is engineered for demanding industrial and construction environments. Mounted on a durable single-axle trailer, it provides mobility and reliability for on-site compressed air needs. The robust enclosure ensures protection against the elements, making it an ideal choice for emergency applications and remote project sites.

Technical Specifications

Suitable Applications

- Construction sites
- Industrial operations
- Emergency power supply
- On-site compressed air generation

Design Highlights

Durable Enclosure • Integrated Lighting

Equipment Type	Portable Air Compressor with Trailer
Mobility Features	Single-axle trailer, Integrated lighting, Portable
