

Portable Air Conditioner with Casters

This portable air conditioner unit is designed for spot cooling and dehumidifying applications. It features a compact design with integrated casters for easy mobility.

Overview

Versatile Spot Cooling Solution

This portable air conditioner is engineered for efficient spot cooling and dehumidification in diverse settings. Featuring a compact and mobile design with integrated casters, it allows for easy relocation to areas requiring immediate temperature control. It is an ideal solution for residential, commercial, and industrial environments needing localized cooling.

Performance & Features

Core Functions	Spot Cooling, Dehumidification, Temperature Control
Control System	Adjustable Thermostat
Condensate Removal	Yes

Design & Mobility

Mobility

Integrated Casters • Compact Design

Applications

Suitable Environments

- Residential
- Commercial
- Industrial
