Product Overview

Dual-Function Climate Control

This versatile appliance combines efficient air conditioning with powerful dehumidification to maintain optimal indoor comfort. Designed for flexibility, the unit features a compact, mobile build with caster wheels, making it suitable for homes, offices, and small enclosed spaces. It actively manages ambient temperature and moisture levels to prevent mold, mildew, and odors while ensuring a healthy environment.

Key Features

Usability Features

- Digital control display
- Adjustable louvers for airflow direction
- Integrated caster wheels for mobility
- Built-in handle for portability
- Water tank for moisture collection
- Continuous drainage option

Core Functions

Air Conditioning, Dehumidification, Temperature Adjustment, Moisture Removal
