

Portable Air Conditioner with LCD Display

This portable air conditioner is designed for both European and North American markets. It features an electronic control with LCD display and multiple fan speeds.

Model	Model: P061801	Model: P061802
Power Supply	220-240V 50Hz	115V 60Hz
Cooling Capacity (BTU)	14000BTU (4.1kW)	14000BTU
Power Consumption	1300W	1300W
Recommended Room Size	28m ²	28m ²
Compressor	Rotary	Rotary
Refrigerant	R410A	R410A
Airflow Volume (m ³ /h)	470m ³	470m ³
Dehumidifying Capacity (L/hour)	1.8L	4.0Pt
Noise Level	52dBA	52dBA

Key Features	Product Details
Electronic control with LCD display	Color: Silver/Black
3 fan speeds (Low / Med / Hi)	Unit Dimensions (W x H): 508x420x853mm
10hr timer	Package Dimensions (W x H): 550x460x1180mm
Auto restart (after power outage)	Net weight: 37.5kg
Remote control	Gross weight: 43.5kg
Washable filters	Lead time (30 days/45 days/60 days)
Drain hose (detachable)	1000/1200/1500mm
*The data of the self-evaporation water elimination system has been published by AHRI, P-061801 & P-061802.	

Remarks:
 1. Cool test cooling speed is maximum.
 2. Other cooling is available.
 3. The above model has UL, EMC, CE, and ETL approvals and also complies with RoHS standard.

Product Overview

Versatile Portable Cooling

This high-performance portable air conditioning unit delivers efficient cooling with a 14,000 BTU capacity, making it suitable for spaces up to 29 square meters. It features a patented self-evaporation water elimination system to minimize maintenance and dripping. Equipped with an LCD display and three fan speeds, it provides user-friendly climate control for professional environments.

Performance & Technicals

Key Performance Metrics

14000 BTU
Cooling Capacity

470 m³/h
Airflow Volume

52 dBA
Noise Level

Regional Specifications

Feature	European Market	North American Market
Power Supply	220-240V 50Hz	115V 60Hz
Power Consumption	1400W	1300W
Dehumidifying Capacity	1.8L/Hour	4.0Pt/Hour

Physical & Operational

Weight

- Net Weight: 37.5kg
- Gross Weight: 43.5kg

Unit Dimensions

508 x 420 x 853 mm

Features & Compliance

Key Functionality

- 24H Timer
- Electronic Control with LCD Display
- 3 Fan Speeds
- Patented Self-Evaporation System
- Rotary Compressor

Approvals & Standards

CE, UL, LVD, EMC, RoHS
