Overview

Smart & Portable Cooling Solution

This portable air conditioner offers a versatile cooling solution for modern indoor spaces, combining mobility with advanced smart features. Equipped with WiFi connectivity and intelligent temperature sensing, it ensures precise climate control from anywhere via your mobile device. The unit is engineered with high-efficiency components to provide reliable cooling, dehumidification, and fan modes for year-round comfort.

Smart Features

The 'I FEEL' function uses a sensor in the remote to ensure the temperature is perfect exactly where you are sitting.

Seamlessly connect and manage your indoor climate from any location using smart device integration.

Connectivity

WiFi Enabled • Remote App Control • Smart Device Integration

I FEEL Technology

Automatically adjusts operating state and temperature based on feedback from the remote control's built-in sensor.

Control Modes

Turbo, Clean, Sleep Mode, Timer, °C/°F Selection

Core Components

Equipped with world-class compressors to ensure long-term reliability and powerful cooling performance.

Advanced threaded copper piping increases heat exchange efficiency by up to 30% compared to standard smooth pipes.

Heat Exchange Improvement

30 %

Efficiency Increase

Compressor Type	International famous brand high-quality compressor for stable and reliable operation.
Internal Piping	High-quality internal thread copper pipes for maximized surface area and heat transfer.

Design & Mobility

Design Features

- Sleek white exterior with black top control panel
- Integrated digital display
- Caster wheels for easy room-to-room mobility
- Compact footprint for small to medium spaces

Operational Modes	Cooling, Dehumidifying, Adjustable Fan Speeds
--------------------------	---

Maintenance

Maintenance & Eco-Friendly

- Self-evaporative system to reduce manual drainage
- Washable air filter for improved air quality
- Environmentally friendly refrigerant
