

# Portable Air Cooler and Warmer with Adjustable Louvers

This portable unit functions as both an air cooler and warmer. It features adjustable louvers for directing airflow and caster wheels for enhanced mobility.

## Product Overview

### Versatile Climate Control

This portable air cooler and warmer offers a comprehensive solution for personal climate control throughout the year. Featuring powerful PTC heating technology and multiple wind modes including cool, warm, and hot settings, it adapts seamlessly to changing environmental needs. Designed for convenience, it includes automatic wide-angle oscillating louvers to ensure even air distribution and a 7.5-hour timer for flexible operation.

## Performance & Features

Heating Element	PTC
Wind Modes	Cool, Warm, Hot
