

Portable AM/FM Radio Receiver

This portable AM/FM radio receiver is designed for personal listening. It features a telescopic antenna for enhanced FM reception and a built-in speaker for audio output.

Overview

Compact Portable Audio

This portable AM/FM radio receiver is designed for reliable, on-the-go audio performance. Featuring a classic 2-band tuning system, it allows users to easily switch between AM and FM frequencies using a simple band selector. Its compact form factor and battery-powered operation make it an ideal choice for personal listening in various environments.
